

Project Overview

Mesa County is developing a 1-10-year strategic plan to guide management and investment efforts in public transportation in the areas served by Grand Valley Transit (GVT), including: Grand Junction, Fruita, Palisade, Clifton and some unincorporated areas of the County.

The plan will be developed through a collaborative process that includes meetings with stakeholders, public officials, the general public, local communities and Mesa County and GVT staff.

The plan will set a direction for GVT and its role in the region's overall transportation network.
